

Happy Holidays

The Christmas time that now arrives, surrounds the cities with a magical environment of solidarity, friendship and good wishes. Chiclana, that couldn't be less, receives this time of the year with its decorated streets, filled with people who create a sensation of comradeship and illusion. As mayor of Chiclana, I want to mention especially those citizens that one day arrived here from a different country and decided to stay here living among us, and wish them a very happy holiday, enjoying our traditions.

Although it does not seem long ago that this 21st Century began, we are about to reach the end of its first decade. A stage filled with changes in which the social advances can't, under any circumstance, be pushed aside, with so many new technologies. We invite those, who come from other nations, to participate in the day to day of Chiclana.

As mayor of Chiclana I wish that everyone spends these dates in company of their loved ones, enjoy that company, and basically, be happier.

I will be available for any subject you wish to deal about with me.
